PROFILE SUMMARY

Final-year Computer Science student and full-stack developer building responsive web applications with React.js on the frontend and Node.js/Express.js REST APIs on the backend, working with MongoDB, MySQL, and PostgreSQL. Experienced in testing, debugging, and maintaining technical documentation, with additional exposure to data tooling using Power BI, SQL, and Python. Collaborative team player, quick to pick up new tools and technologies.

EDUCATION

B.Tech in Computer Science and Information Technology, REVA University

2023 - 2027

Class XII (Senior Secondary), KV AFS Avadi, Chennai - CBSE Board

Class X (Secondary), KV AFS Avadi, Chennai - CBSE Board

SKILLS

Languages: Python, JavaScript, Java, C++, SQL

Frontend: React.js, HTML5, CSS3, Responsive UI, Component-Based Architecture

Backend: Node.js, Express.js, REST APIs, Socket.IO, JWT Authentication, Testing & Debugging

Databases: MongoDB, MySQL, PostgreSQL

Data and Visualization: Pandas, NumPy, Power BI, DAX, Matplotlib

Tools and Cloud: Git, GitHub, Vercel, CI/CD

Core CS Concepts: Data Structures and Algorithms, OOP, DBMS, Computer Networks, SDLC, API Integration

ACADEMIC PROJECTS

Campus Event Finder | *React.js, TypeScript, Node.js, Express.js, MongoDB, Socket.IO, REST APIs*

- Engineered a full-stack campus event platform using React, TypeScript, Node.js, Express.js and MongoDB to streamline event discovery, registration and organizer management.
- Implemented QR-based registration and attendance, generating unique participant QR codes and enabling secure verification, attendance tracking and certificate eligibility.
- Developed role-based student and organizer workflows with event creation, registration deadlines, team participation, participant management and real-time event updates.
- Performed API testing, integration testing and debugging across registration, authentication, QR, attendance and event-management workflows to improve application reliability.
- Collaborated on feature development and maintained project/API documentation, with the production-ready application deployed at [c-e-s.vercel.app](#)

Personal Portfolio Website | *React.js, Three.js, Framer Motion, Vite, Vercel*

- Built an interactive portfolio with 3-D animations using Three.js and smooth scroll/transition effects with Framer Motion, plus a custom cursor that glides across the page.
- Designed reusable, responsive React.js components in a section-based layout, with performance optimized via Vite for fast load times.
- Deployed on Vercel with CI/CD via GitHub for continuous delivery.
- Live at: [about-me-rho-one.vercel.app](#)

TaskFlow - Task Management App | *React, Node.js, Express.js, MongoDB Atlas, Vite, REST API*

- Built a full-stack task management application using React, Node.js, and Express.js, with REST APIs for creating, updating, deleting, and retrieving tasks.
- Implemented task search, status/priority filters, sorting, quick completion, editing, and responsive UI for efficient task management.
- Added due date/time validation and persistent backend storage using MongoDB Atlas, with an in-memory fallback for local development.
- Deployed the application on Vercel: [taskflow-tawny-gamma.vercel.app](#)

CERTIFICATIONS

- Gemini Certified Student - Google for Education (2025)
- AI & ML Masterclass - Eureka Association, in collaboration with REVA University
- Full-Stack Developer Industry Simulation - covered scalable web application workflows (Internship Studio)

SOFT SKILLS

Analytical Thinking, Problem-Solving, Debugging, Team Collaboration, Communication, Time Management, Adaptability, Quick Learner

EXTRACURRICULAR ACTIVITIES

Football, Reading, Swimming, Video Gaming.
